To find where your team will start its practice rotation:

1. Find your team on the left which will give your weekday practice day and time
2. locate the date of the practice along the top.
3. Read down from the date and then across from your team:

That will give your team's starting location for that days practice

For example: The 8th grade girls team coached by Mike Petruny, on March 1 starts practice on Red 1 .
